GOOD news - Malcolm Turnbull has agreed to review \$1.2 billion in aged-care cuts. But he needs to go further, much further and review the disastrous 30 per cent federal funding cuts to community legal centres across Australia as these are nothing but a false economy (*Macarthur Chronicle*, July 5).

Community legal centres help victims of domestic violence. We work with employees victimised by employers. We work with the aged, the infirm needing peace of mind of wills and powers of attorney. We work with the poor, the socially disadvantaged and those who

do not have access to justice. Without us the courts get clogged up with people forced to represent themselves. And now they want to cut back our federal funding. This means turning people in need away. We are community-based, not-for-profit organisations.

So, if you value the Australian community, if you stand by the poor, if you recognise that access to justice is a right and not a privilege - show us the money, Mr Turnbull.

Robert Pelletier, Executive Officer, Macarthur Legal Centre, Campbelltown
